

History

Our [History](#) curriculum at Hollin Primary supports a recognition of how events in the past are connected and have a legacy. We ensure that historical coverage has a local context, including their own home and family. The children then develop core subject knowledge, studying a wider framework of different historical times, consolidating and extending their understanding of how these times fit together. We want children to develop an understanding of time, scales and periods within history. In KS1 we introduce significant events, people and places that they will cover in more depth in KS2. In KS2 we study topics in chronological order to develop pupils chronological knowledge and understanding of scale and period.

Hollin Primary School
History Curriculum Overview
