

What children say

Maths

I like counting to 100!
We get to work with
partners. We get to play
fun games.

Reception

We use Numicon- we have
giant Numicon and small ones.
We have to count pennies and
buy things from our shop. We
can save our money for next
week!

Reception

What children say

Maths

Subtraction is so good because it's easy to do. Now I'm counting to 50 and even 100! I love it!

Year 1

The songs are about numbers, adds and take away- they make me feel happy!

Year 1

I like the songs where you get to join in! They help us learn doubles, add and take away.

Year 1

I love doing the work and everything. As well I like doing the sums!

Year 1

I like counting in ones up to 50! I'm great at Maths because I always join in and make great choices!

Year 1

I like really Maths because I like learning adding and subtraction and counting to 100!

Year 1

What children say

Maths

I like that I can learn new things. I like to do times tables and even do work at home to bring into school.

Year 2

I like learning my division- I'm really good at them. I know my times tables too.

Year 2

Maths is fun, I like doing hard Maths! I even know my 9 times tables.

Year 2

Maths helps me learn times tables and division. It's fun to write the answers in my book.

Year 2

I like when we do singing because it has a good rhythm but it also teaches you your multiplication.

Year 2

I like when we do singing because it has a good rhythm but it also teaches you your multiplication.

Year 2

What children say

Maths

I like doing hard questions. Maths teaches you to never give up – I feel very happy and want to say thank you to Mrs Hirst for helping me get better.

Year 3

I like doing fractions because they are easy and hard in different ways, which makes it fun. Like whether you have to work out $\frac{1}{4}$ or $\frac{3}{4}$.

Year 3

I like fractions because we can draw them and make them with different equipment- that makes it fun.

Year 3

I like how hard or easy the questions are. I like marking my work to see how many I have right- it makes me feel very happy when I get them right!

Year 3

Miss Osborne teaches Maths in a kind way that helps me figure it out. I think I'm good at multiplication & division.

Year 3

I like how hard or easy the questions are. I like marking my work to see how many I have right- it makes me feel very happy when I get them right!

Year 3

What children say

Maths

Maths is a challenge & you should never give up on Maths! I get extensions for even more challenges!

Year 4

I like that Miss Gee lets me highlight key words in problems because it helps me see the important parts of the problem better.

Year 4

I love practising and learning Maths because it makes my brain bigger. I like having extra homework to take home.

Year 4

Multiplication & division are enjoyable and fun because if you know your times tables you can do pretty much anything!

Year 5

I like everything about Maths- I feel confident. It's fun and challenging!

Year 5

I like rounding numbers because it is so easy. Miss Shields circles the digit you need to round up or down which helps make it easier to learn.

Year 5

What children say

Maths

It gets really challenging- & I love a good challenge. My favourite things are perimeter, angles, area because I feel confident with these. Maths is my favourite subject! I enjoy Maths Boosters.

Year 6

My favourite part about Maths is I feel really confident in myself when answering questions & sharing my knowledge with others. Maths is my favourite subject! Acronyms are a great way to practise and avoid mistakes.

Year 6

I like how the lesson is taught. Mr Melia explains it in a simple way & helps us out. We play games which helps me understand it more. I find Maths boosters very useful. Phrases like: SAME, ODD, SAME help with angles on an isosceles triangle.

Year 6
