

Physical Education

Here at Hollin, we believe every child should have the chance to participate in [Physical Education](#), Physical Activity or School Sport on a regular basis in order to become physically and mentally confident and competent. We want our children to develop a love, enjoyment and a passion for sport therefore continuing this into their later lives.

We have a PE specialist who teaches across each Key Stage. They also support the school when taking part in inter-school games and athletic events. It also allows our children to take part in high quality extra-curricular activities such as: football, netball, hockey, rugby, basketball and cricket.

Children in Year 4 will also learn how to swim. This is delivered by qualified instructors over 17 weeks.
