<b>Aim</b> To look at effective ways to reduce water waste		<b>Informing &amp; Involving Plans</b> <ul style="list-style-type: none"> <li>Speak to Mr Patten (Headteacher) about new purchases</li> <li>Verbal discussions</li> </ul>	<b>Final Evaluation</b>

The Eco-Club empowers students to participate and take up meaningful, environmental activities and projects such as Energy Saving Week and a whole school Single Use Plastic Campaign to promote the importance of living sustainably and reducing our carbon footprint.

Our newly installed growth boxes enables pupils to learn outside of the classroom. They provide an essential environment for produce to grow and for habitats to support insects on which many birds depend on for food. The station provide a growth of knowledge to spark children's curiosity and encourage others to ask questions.

Our Eco School is committed to creating change for the benefit of future generations.
